AI Academic Integrity: When do I use AI?

AI is not permitted for this task.

Students must demonstrate their own knowledge, thinking, and skills without AI assistance.

AI may be used for brainstorming, questioning, or organizing ideas.

AI cannot generate content that appears in the final submission.

AI may provide feedback to improve clarity, organization, or technical accuracy.

Students remain responsible for reviewing, revising, and ensuring accuracy.

AI may be used to support parts of the task but you must carefully fact-check its output.

Students must:

- Fact-check
- Ensure original thinking is present
- Follow privacy and ethical guidelines
